

MCH-2450A-S

Features :

- Charging process protection short circuit preventio
- Intelligent soft start battery and charger protection
- Intelligent temperature control Improve charging efficiency
- Low temperature working increase service use time
- Reverse connect protection protective integral circuit
- Automatic power-off remove hidden dangers

input voltage	180-240 VAC
output voltage	24 V
Rated Frequency	47-63 Hz
Charger Current	50 A
Efficiency	>90%
Case Material	Steel
Battery Type	LEAD ACID
Diminations	330*145*200
Weight	3.1
