

MCH-1240A

Features :

- Charging process protection short circuit preventio
- Intelligent soft start battery and charger protection
- Intelligent temperature control Improve charging efficiency
- Low temperature working increase service use time
- Reverse connect protection protective integral circuit
- Automatic power-off remove hidden dangers

input voltage	100-240 VAC
output voltage	12 V
Rated Frequency	47-63 Hz
Charger Current	40 A
Efficiency	>90%
Material	Plastic
Battery Type	LEAD ACID
Diminations	132*74*288
W eight	1.2
