

MCH1250-A

Features :

- Charging process protection short circuit preventio
- Intelligent soft start battery and charger protection
- Intelligent temperature control Improve charging efficiency
- Low temperature working increase service use time
- Reverse connect protection protective integral circuit
- Automatic power-off remove hidden dangers

input voltage	100-240 VAC
output voltage	12 V
Rated Frequency	63-47 Hz
Charger Current	50 A
Efficiency	>%90
Material	Plastic
Battery Type	LEAD ACID
Diminations	288*74*132
Weight	1.2
