

# MCH-2420A

## Features :

- Charging process protection short circuit preventio
- Intelligent soft start battery and charger protection
- Intelligent temperature control Improve charging efficiency
- Low temperature working increase service use time
- Reverse connect protection protective integral circuit
- Automatic power-off remove hidden dangers

input voltage	100-240 VAC
output voltage	24 V
Rated Frequency	47-63 Hz
Charger Current	20 A
Efficiency	>90%
Material	ABS
Battery Type	LEAD ACID
Diminations	132*74*288
W eight	1.1
