

MCH-4820A-S

Features :

- Charging process protection short circuit preventio
- Intelligent soft start battery and charger protection
- Intelligent temperature control Improve charging efficiency
- Low temperature working increase service use time
- Reverse connect protection protective integral circuit
- Automatic power-off remove hidden dangers

input voltage	180-240 VAC
output voltage	48 V
Rated Frequency	47-63 Hz
Charger Current	20 A
Efficiency	>90%
Case Material	Steel
Battery Type	LEAD ACID
Diminations	313*186*117
Weight	1.75
