

Battery Charger

Features :

- Charging process protection short circuit prevention
- Intelligent soft start battery and charger protection
- Intelligent temperature control Improve charging efficiency
- Low temperature working increase service use time
- Reverse connect protection protective integral circuit
- Automatic power-off remove hidden dangers

Model	MCH-1220A-S	MCH-1230A-S	MCH-2430A-S
Input Voltage	180-250 VAC		
Output Voltage	12V		24V
Rated Frequency	47-63 Hz		
Charger Current	20A	30A	30A
Efficiency	87%		
Material	Metal		
Battery Type	Lead Acid
