

Lithium Battery Charger

MCH-12.830A-SL

Features :

- Charging process protection short circuit prevention
- Intelligent soft start battery and charger protection
- Intelligent temperature control Improve charging efficiency
- Low temperature working increase service use time
- Reverse connect protection protective integral circuit
- Automatic power-off remove hidden dangers

Input Voltage	180-240 VAC
output voltage	12.8 V
Rated Frequency	47-63 Hz
Charger Current	30 A
Efficiency	>90%
Case Material	Aluminium
Battery Type	Lithium
Cell Type	LiFePO4
LCD	Yes
Dimensions	132*74*28
Weight	1.31
